

VIKAS INTERNATIONAL SCHOOL KUALA LUMPUR, MALAYSIA WEEKLY NEWSLETTER: GLIMPSE OF THE WEEK

Dear Vikasians,

We kick started our week together with the celebration of **Merdeka day**, which was filled with patriotic spirit and love for the country. The pandemic has taught us how important it is to work together in unity and remain strong during difficult times. So, this day was celebrated to teach and make the younger generations aware about the importance of togetherness in a country. The children and the teachers of our school thoroughly enjoyed this day. All the kids came in colored dresses and were looking like colorful flowers. Few of them got a chance to perform on the stage in various events like singing and dancing for the independence of this country. The children were seen preparing themselves for this event for a long time with the support of their teachers. They even had a small party in their respective classes where they were allowed to share their food with friends and enjoy to celebrate this day with love and pride. Overall, It was a wonderful day for the kids as well as the staff.

We were also glad to see all our parents of secondary students back in our school campus last Saturday. We could not thank you enough for your constant support in making this school an incredible place and trusting us with your kids. We appreciate the queries we received from you all and we promise to work on it. We are excited and looking forward to meet our parents of Primary students this Saturday with the same energy. We request you to kindly come participate in this Parent – Teacher meeting and know about the progress of your kids. Also, kids and teachers were seen happy and comfortable in their new uniform. It is said that , **‘A change is always good and it gives you a fresh start’**. So, let us be happy and accept this change.

We are also starting with our Midterm – II test from Monday. Teachers have done their best to make the kids revise the concepts, motivate them and prepare them for the tests. Children are also seen all set to write their exam. We expect the same motivation from the parents side as well. As exam time is the most stressful time for kids, we would just like to remind you that, **‘Every child is unique, and hence they have their own strengths and weaknesses.’** Living in the times today, when everyone around us seems to be a competition, it becomes tough to lift the excess burden to study rigorously. So, we request you all to not pressurize the kids to score good marks and help them relax so they do not dwell on things they could have done better. We wish all our kids the best of luck for the exam. Take a deep breath, stay positive and do not stress yourself! Keep going!

**DATES TO
REMEMBER**
